

Public Statement of Support for Ukraine

At Hilltop Technologies, we stand united in our commitment to freedom, justice, and the fundamental rights of all individuals. In light of the ongoing war in Ukraine, we want to publicly express our unwavering support for the people of Ukraine as they confront aggression and fight for their sovereignty.

We recognize that this conflict extends beyond borders; it threatens the very principles of democracy, security, and human dignity. The people of Ukraine demonstrate remarkable resilience and courage in the face of adversity, and we honor their strength and determination.

As a cybersecurity firm, we are acutely aware of the digital threats and disinformation campaigns that accompany such conflicts. We stand ready to support efforts that promote cybersecurity and safeguard the integrity of information. Our mission includes not only protecting our clients but also advocating for a safe and secure cyberspace for everyone.

We call on our partners, clients, and the global community to take a stand against aggression and to support humanitarian efforts for those affected by the war. Together, we can foster an environment of peace, uphold human rights, and ensure that the values we hold dear are defended.

In solidarity with Ukraine, we pledge to do our part in promoting awareness, understanding, and action against the injustices that occur during this tumultuous time.
